## **Role of the House Director:**

The House Director helps to keep everything within the house orderly and organized. She has all the keys to doors within the house, has the rules and helps to enforce them as well. She helps to make sure everyone is being safe and treating each other right as well.

## **Role of the House Manager:**

The House Manager, or VP Facility Operations, oversees that chores are being done, women are following the house rules from the bylaws, and helps to make sure everyone is okay and staying safe.

## **Rules for Visitors:**

Guests are allowed guests from 7:30am to 2:30 am. After midnight, guests are not allowed upstairs.

# CHAPTER INFORMATION

***How does your chapter oversee the academics of your members?***

***"We overview academics through our VP Intellectual Development and VP CRS and the board."***

***How does your chapter support your members in their academics?***

***"We have a VP Intellectual Development position that holds study hours, checks in with women and their school work, creates major-related group chats and more. She checks in with academics and how women are feeling throughout the semester and if they doing well and or need any references or help."***

***Do you believe that living in the house is impactful on one's sorority (and college) experience?***

***"Yes, I truly believe that living in one's sorority house helps enhance a college experience. It creates memories that you will never forget and an experience that you cannot get anywhere else. It shows you the value of sisterhood and friendship that you cannot necessarily get outside of the sorority house."***

***Do you believe your members are equally/more successful in their academics living in the house versus on-campus?***

***"I believe that every member is equally successful in their school work within the house as they would be outside the house. Within the house there are many women that have similar classes and majors that are willing to help each other do well and succeed within classes and grades. There is a quiet study room that is open to all members to use as well as a large dining room to work within."***

***Why should sorority women live in their chapter house?***

***"Women should live in their sorority house to fulfill the experience and membership of their chapter. Living in is an experience they will never forget and creates memories that last a lifetime. It allows members to truly experience the sisterhood that creates Alpha Chi Omega."***

## **Role of the House Director:**

The HD is the liaison between the chapter and any outside maintenance, meal services, etc. They remain in close contact with Headquarters to keep them updated as well as work through any issues that arise.

## **Role of the House Manager:**

The Property Manager and her committee, under the guidance of her adviser, shall be responsible for the development of the Chapter's House/Facility Rules which shall define Chapter policies and expectations regarding the Chapter house/facility.

## **Rules for Visitors:**

Visitors are allowed as long as the HD and HM are informed at least 24-48 hours in advance. Friends (female) can stay the night in the house if visiting, men visiting can only be in common areas and can't be in the house past 12pm.

# CHAPTER INFORMATION

***How does your chapter oversee the academics of your members?***

***"We have elected Academic Chairs that oversee academics of all members. Grades are submitted at the end of the semester and based on GPAs, academic plans may be used to enhance and support members. Member on academic plans have to earn study hours and based on which particular plan you are on that depicts the number of study hours you must attain. Those are normally tracked by the host of study tables and or an app."***

***How does your chapter support your members in their academics?***

***"Our chapter developed a "Major Bank" which is basically a document that outlines every members majors. This assists members by allowing them to know of other members that are taking the same path which enables them the ability to ask questions and build connections. Having academic plans also aids in the support of our members. It allows for a pressing force that encourages studying and taking courses seriously. Study tables also allow members to have a structured time where they are able to set aside distractions and focus on completing assignments."***

***Do you believe that living in the house is impactful on one's sorority (and college) experience?***

***"Yes, it opens the barriers for better connections and getting to know your sisters on a deeper level. It enables crucial bonds needed to continue in an organization. There is always another person to connect with which eliminates any feelings of loneliness. It's a very unique and impactful experience."***

***Do you believe your members are equally/more successful in their academics living in the house versus on-campus?***

***"Women are focused on their schoolwork, so it's actually a great motivator. There is usually another member who has/had the same course and can help with any confusion or questions."***

***Why should sorority women live in their chapter house?***

***"It's a very impactful experience that encourages bonding and meeting people you normally wouldn't. The environment allows for better connection which as a result makes it a more supportive atmosphere. There are many positives and pluses that go along with living in a chapter house!"***

## **Role of the House Director:**

Our HD makes sure food is arranged and cleaning taken care of, keeping girls safe in case of emergency.

## **Role of the House Manager:**

The main duties for being House Manager includes keeping the house clean, enforcing the rules, and assisting move in and move outs. With so many women living in one house, it can get quite messy and it often needs to be reminded to the women living in to pick up their clutter. Now more than every the house rules to need to be reinforced. Overall, the House Manager is the middle ground between the women and the House Director/nationals. The most fun part of being house manager includes assisting with move in and move out. This is for both the women living in now and next year. You work closely with these women for room assignments, times to move in, and special living requests.

## **Rules for Visitors:**

Boys can't be here past 12 and visitors are to be kept to a minimum.

# CHAPTER INFORMATION

*How does your chapter oversee the academics of your members?*

*"We collect grades each semester at the end of the semester"*

*How does your chapter support your members in their academics?*

*"We have study hours, group chats for specific majors and fields of study, and resources in the hours for girls to take advantage of."*

*De you believe that living in the house is impactful on one's sorority (and college) experience?*

*"Living in is truly a once in a lifetime opportunity as you get to form relationships with all the girls within your PC. When there are sorority events, it is so fun to get ready together. You are able to help out a lot easier than not living in. Living in allows you to grow as a person and within the sorority while being surrounded by all your closest friends."*

*Do you believe your members are equally/more successful in their academics living in the house versus on-campus?*

*"Very beneficial! It is beneficial with school as well as there is usually at least one other girl that has a class as you. Studying together and sharing class material is a way to make school more manageable."*

*Why should sorority women live in their chapter house?*

*"Living in the house helps create connections and bonds you can only make by living with other girls. It helps the transition between teenagers to young women. It instills responsibility within the girls as well, so when they are living on their own they are more prepared."*

## **Rules for Visitors:**

Yes. In previous years, female visitors are allowed in bedrooms and allowed to stay the night. Roommates who share the rooms are to be notified of the visitor. Male visitors are not allowed to stay the night. They are only allowed on bedroom floors during the daytime. You must notify everyone on the floor when a male is about to come onto the floor.

# CHAPTER INFORMATION

***How does your chapter oversee the academics of your members?***

***"We encourage good grades & recognition for good grades. We read a list of accomplishments at our chapter meetings every week, and one person from the list randomly gets chosen for a gift card. We do semesterly grade checks. Women who do not meet the GPA requirement get put on probation are requested to attend study hours. Study hours are offered to everyone and would typically take place three days a week at the house. This is currently not occurring due to COVID."***

***How does your chapter support your members in their academics?***

***"We do all of the things described above. Create many study spaces, create study hours throughout the week (open to all members), create study groups, maintain a GPA requirement, works with members who do not maintain the GPA requirement to succeed, recognize and reward successes."***

***De you believe that living in the house is impactful on one's sorority (and college) experience?***

***"Yes. Living in a sorority house is a "once in a lifetime" opportunity in a way. It's a chance to live with many women who share your values in a supportive environment. It's a fun place to live in, but also a place that holds support, friendship, sisterhood, and encourages good academics and other success. Someone is always there to help you when you're down, and encourage you when you succeed."***

***Do you believe your members are equally/more successful in their academics living in the house versus on-campus?***

***"I believe members living in the house may be more successful. They have easy access to a large abundance of study areas and resources. They also have easy access to study hours since they typically take place in the house where they live. It's also a great meeting place for study groups. Women living in the house are also surrounded by many people who want to see them succeed and encourage them to do so."***

***Why should sorority women live in their chapter house?***

***"Sorority women should live in their chapter house because it provides a fun, safe, supplemental, and supportive environment for women to succeed in their college years physically, emotionally, mentally, and academically."***

## **Role of the House Director:**

Our house mom is in charge of maintaining the house, setting house rules each year, renovations, responsible for cleaning ladies, security, safety, mail distribution, responsible for chef, and overall maintenance including fire inspections, etc. Our house mom also plans events for in house girls, for example: holiday parties, pumpkin carving, dessert nights, special dinners, movie nights etc.

Our house mom is also on our housing board which is responsible for deciding when inspections happen, the house budget, approving renovations, and dissolving any major conflicts.

## **Role of the House Manager:**

The house manager is responsible for room picks, organizing move in and move out, and being a liaison between the housing board, the house mom, and the members living in. The House manager also serves on our food committee, which meets with the chef to help decide meals based off of what the house liked and didn't like.

## **Rules for Visitors:**

Currently because of covid rules for visitors are more strict than usual, with the rise in cases in the state of Michigan and before the holidays no visitors were allowed in the house. The big rule: boys must use the downstairs bathroom and need to be accompanied by their host. Sometimes the house also decides it would like anyone to announce when their is a boy on the floor (very dependent on what the girls living in feel they are most comfortable with). Usually, if everyone is being respectful and the guest are being respectful things are chill, but obviously if anyone is disrespectful to a member, our house mom, or the house more rules are put in place.

# CHAPTER INFORMATION

***How does your chapter oversee the academics of your members?***

***"We have an academics chairwoman that is in charge of collecting grades for the semester and electing a academics committee that meets with members that fall under the gpa requirement to set up an academic plan that varies based off of what the specific member needs to succeed on top of our academic points system."***

***How does your chapter support your members in their academics?***

***"We have an academic points system. Our academic point system is for anyone under a 3.5 GPA, we give them a list of tasks, provided by our nationals, that includes things like got a 4.0 on an exam (3 points), participated in another club (1 point), went to office hours (2 points), etc and based off of your GPA, you need to complete a certain number of points. If you don't achieve those points you meet with the academic committee to explain what happened and work through ways for improve next semester. We understand that everyone has unique ways of studying and learning so we found this system really beneficial because it is completely customizable to each member!"***

***De you believe that living in the house is impactful on one's sorority (and college) experience?***

***"Yes!!! I lived in the house my sophomore year which was the best decision ever...Freshman year I had a handful of friends that I had made that lived in the same neighborhood as me, but living in the house let me branch out in the sorority because I was living, eating, and sharing a bathroom with girls that I didn't really know anything about prior to moving in. I was able to meet and become best friends with girls I didn't even talk to that much freshman year. Living in also improved my academics because I was able to meet girls that helped me with school because they were excelling in a classes I was struggling in, it was like a live in tutor, and now that we don't live in we still get together and study. Living in was so much fun because I was constantly surround by so many different people that come from all over the US with so many different perspective and ideas that I would have never been able to experience if I didn't live in.."***

***Do you believe your members are equally/more successful in their academics living in the house versus on-campus?***

***"I think living in the house is so helpful in improving our members academics because it's 50 girls that have a wide rage of majors and interest and you are bound to find someone that can help explain something to you even if you aren't the closest to them. We also have a large dining room that is full after dinner around 7pm because everyone does their homework together and seeing others work so hard definitely motivates you to work harder on your academics."***

***Why should sorority women live in their chapter house?***

***"It sounds so cliché but I truly met my best friends and my future bridesmaids. If I wouldn't have lived in I wouldn't have grown so close to all of the other women that lived in. Living in is such unique experience because at no other point and time in your life will you have the opportunity to live with 50 other strong women that are constantly there to build you up and make you stronger. At a time in college where you might feel alone or you might want to change your major or change your entire life direction no matter what there will always someone to have your back or help you."***

***How does your chapter oversee the academics of your members?***

***"We look to see that they are maintaining their grades and if they get below around 2.5 they go on probation. We require them to send in their grades at the end of every semester."***

***How does your chapter support your members in their academics?***

***"Theta has an amazing reputation with academics having received highest GPA (in PC) multiple times. The girls are constantly cheering on each other and helping each other out."***

***Do you believe that living in the house is impactful on one's sorority (and college) experience?***

***"I truly believe the only way to get close with your sisters is to live with them. My first year in Fraternity & Sorority Life, it was hard to make meaningful connections, and I actually considered dropping. Once I moved in the house, I noticed an immediate change in how I felt and totally changed my mindset from wanting to drop to running for president. I love these girls and I owe how close we are to living in the house."***

***Do you believe your members are equally/more successful in their academics living in the house versus on-campus?***

***"We are always studying in the house together and we really motivate each other to do better. Since there are so many girls living in the house, you can almost guarantee that someone has or has taken the same class as you. The girls in the house tend to be more successful in classes since they have a support system surrounding them to do better"***

# CHAPTER INFORMATION

*How does your chapter oversee the academics of your members?*

**"Every semester, girls send their grades in. If they are not up to our standards, we will send them to our standards not as a punishment, but to help them and get them the tools they need to succeed."**

*How does your chapter support your members in their academics?*

**"All of the older members always offer help to the younger girls if they are taking the same classes. We also have our Education chairman and Vice President of Academic Excellence that are in charge of educating the women about all of the tools and resources campus has to offer as well as Kappa Kappa Gamma nationally."**

*Do you believe that living in the house is impactful on one's sorority (and college) experience?*

**"Yes I do. I was not close to anyone my freshman year because I lived on East campus whereas most of my sisters lived in North. Living in has brought me close to every single girl in my pledge class and it is so fun. Not to mention you have 50 other closets!"**

*Do you believe your members are equally/more successful in their academics living in the house versus on-campus?*

**"Yes I do. There is just as many resources in the house and they have so many girls to rely on as study buddies."**

*Why should sorority women live in their chapter house?*

# CHAPTER INFORMATION

*How does your chapter oversee the academics of your members?*

"We have a Director of Academics that is responsible for collecting the grades of members each term. We also do raffles weekly for gift cards when members send in their A's to encourage high scholarship all year."

*How does your chapter support your members in their academics?*

"We have study hours for those who are on low scholarship as well as a Google Sheet with all members and their classes so we can see who we may know in our classes."

*De you believe that living in the house is impactful on one's sorority (and college) experience?*

"Absolutely. I was scared I was not going to love the experience, but it's helped me more than I can imagine. I have grown closer with people I didn't know before, and always have a support system to help me. We encourage each other to do school, and most of the time it's fairly quiet during the days which helps all of us be productive."

*Do you believe your members are equally/more successful in their academics living in the house versus on-campus?*

"Yes, we have more resources living in the house, as it's likely someone in the house is taking the course or has taken it before. We are all always willing to help one another."

*Why should sorority women live in their chapter house?*

# CHAPTER INFORMATION

*How does your chapter oversee the academics of your members?*

"We have a VP of Scholarship who oversees grades, and we use GreekStudy based on GPA to monitor study hours."

*How does your chapter support your members in their academics?*

"We connect sisters in the same majors/classes to each other to help each other study. When we see that one of our members is struggling with their GPA, our VP of Scholarship will connect them to resources and help them improve their grades."

*De you believe that living in the house is impactful on one's sorority (and college) experience?*

"Yes! It's the best way to have the living on campus feel while also having a feeling of independence. Living in the house strengthens sisterhood ties and a bond within the sorority, while also giving you more control over your living situation."

*Do you believe your members are equally/more successful in their academics living in the house versus on-campus?*

"Yes, we are definitely equal if not more successful. I think our housing is similar to dorms in that we are surrounded by other students in a learning environment and close to campus. However, being in a house instead of the dorms means we are slightly more independent, and we can feel more comfortable knowing all of the people who live in our building. In the dorms you may only feel comfortable in your specific room, and may avoid the more common public areas, but in our chapter house you have control over who is in your space, and it is easier to communicate to the house about when you need quiet you can easily talk to your sisters about your specific needs. Especially during online schooling, I feel safe and supported knowing I know everyone in my house and how to reach them."

*Why should sorority women live in their chapter house?*

"The biggest draw of being in a sorority is the network of supportive sisters that you are welcomed into. Our chapter house is the hub for all of that support. In the house we get all of the resources we need, including other sisters to help and support us when necessary. It has been such a great experience for me, one because of the fun of living with my friends, but also because of the skills I have gained of cohabiting with such a large group of girls. We have all learned how to react to each other's needs, and to work together to create meal plans, to stay safe during covid, and also to create rules that will help us all flourish. Living in a chapter house is the way to get your full college experience while feeling like an mature adult who has control over their home."

# SIGMA KAPPA

**Address:** 518 M.A.C Avenue

**Chapter President:** Allie Percy

**Contact:** percyall@msu.edu

**Chapter House Capacity:** 50

**Live-in Requirement:** Yes; 1 year

**GPA Requirement:**

- **For Membership:** 2.5+

- **To Live-In:** 2.5+

## **Role of the House Director:**

Our House Mom's role is to oversee activity in the house and ensure that our housing policies are being followed, as well as build meaningful relationships with the women living in.

## **Role of the House Manager:**

Our house manager assists the house mom in ensuring that the house policies are followed by all members.

## **Rules for Visitors:**

Males are restricted to the basement and first floor only. There should be no public display of affection.

# CHAPTER INFORMATION

*How does your chapter oversee the academics of your members?*

*"Our Vice President of Academic Excellence oversees the academics of the chapter. If a member falls below the required GPA a meeting is set up with the VPAAE and a study plan is devised to increase their GPA. Additionally any member with a GPA below a 3.5 has required study hours each week that increase with a lower GPA."*

*How does your chapter support your members in their academics?*

*"In addition to study hours and the responsibilities of our VPAAE, our chapter also has made groups for different majors (ex. business) where members can create study groups, ask for advice, or find tutors."*

*De you believe that living in the house is impactful on one's sorority (and college) experience?*

*"I believe living in the house has a major impact on college and sorority experiences. When living in the house members create important bonds with each other. Women in the chapter are there to support you through you highs and lows. Members get to know others they didn't know as well before. Many times, there is also someone who can walk to class with you or hold you accountable to study."*

*Do you believe your members are equally/more successful in their academics living in the house versus on-campus?*

*"Our members are equally/more successful in their academics while living in the house versus on campus. With many other women living in, it's likely you will have class with other members and can walk or drive together to that class. Members hold each other accountable for studying and completing their course work."*

*Why should sorority women live in their chapter house?*

*"Sorority women should live in their chapter house because in my opinion it is the best part about being in a sorority. Living in the house makes our members feel much more connected to our chapter and the other members."*

**Chapter House Capacity:** 50

**Live-in Requirement:** No

**GPA Requirement:**

- **For Membership:** 2.5+
- **To Live-In:** 2.5+

## **Role of the House Director:**

The House Mom is required to make sure all girls are under control as well as communicating with the House Manager to make sure she's doing okay with everything. Our house mom is a second mom to a lot of girls so she's always checking in with all girls at any time, which makes her so special to all of us girls.

## **Role of the House Manager:**

Our House Manager is required to make sure all spots are all filled in the house, deals with cleaning weekends (making sure girls do their cleaning weekend correctly) deals with conflict in the house (making sure all girls are under control), communicating with the chef about what's to eat each week, and as well as communicating with the House Mom about any or all conflicts at any time.

## **Rules for Visitors:**

In the beginning of the year, all girls are required to sign a form if they want to at some point bring a male in the house at anytime. we have forms of each girl who has signed so we know who is allowed to have male guests and who is not. Also, in this pandemic we are all really careful about visitors, so we try not to have any at possible, but we are aware family like to come see the girls at some point.

# CHAPTER INFORMATION

*How does your chapter oversee the academics of your members?*

*"Each semester each girl is required to send their GPA to the current academic chair so she may review and see who needs the extra help or who needs to come to required study hours."*

*How does your chapter support your members in their academics?*

*"We have an academic chair that is more than willing to help out when it comes to academics and we do hold study hours for girls who really need it or who are required to attend based off their GPA."*

*Do you believe that living in the house is impactful on one's sorority (and college) experience?*

*"Yes, due to being able to be around the girls 24/7 and just getting super close and building that sisterhood strong as ever, which will last a lifetime."*

*Do you believe your members are equally/more successful in their academics living in the house versus on-campus?*

*"Yes, because all girls supported by each other and encouraged to do the right things always. I know academics can be hard especially during this pandemic, so it's nice knowing you have all these girls surrounded by you that are willing to help you as much as possible."*

*Why should sorority women live in their chapter house?*

*they should live in because it overall provides a better chance of growing a stronger sisterhood with all your sorority sisters, as well as having girls you can trust in any situation that might come up. "*

# ADDITIONAL RESOURCES

## Mental Health & Wellbeing:

- In 2020, multiple chapters implemented Mental Health Chairs that support women with not only their lives as sorority sisters, but their lives as students, community members and women.

## In-House Resources:

- All 14 chapters have study rooms with desks available for women who live in the chapter facility
- Multiple chapters have quiet hours in place to ensure quality living for members
- Meal services with in-depth dietary restriction menus are offered to all chapters

## Programming:

- Chapter/In-House meetings once a week
- Sisterhood events
- Presentations from MSU/EL resources
